7. *Law.* Applied to a jury.

In 12–14th c. a jury was a body of witnesses summoned to decide by their sworn testimony (*verdictum*, verdict) some question debated between litigants who had formally agreed to be bound by that testimony. The jury being summoned from the neighbourhood (hundred) in which the controverted facts were supposed to have taken place, the question was said to be tried by the neighbourhood (L. *vicinetum, visnetum*, Fr. *visnet*) or by the 'country' (L. *patria*, F. *pays*). The litigants were said to put themselves *upon the*, or *their country*, and *trial by the country* was distinguished from other modes of trial. The phrase has been retained to the present day, when accused criminals still formally submit to trial 'by God and their country', although the character of trial by jury has been greatly changed. Countur-, obs. form of COUNTER-.

County[1] (kau·nti). Forms: 4-5 **counte, counte,** 5 **cowunty,** 6-7 **countie, -ye,** 6- **county.** [a. AF. *counté* (in Laws of Wm. The L. word had primarily the sense of 'a body of companions, a companionship,' subsequently 'an escort or retinue'; when *comes* became a designation of a state officer, *comitātus* followed as the name of his office, and when the *conte* became a territorial lord, the *comté* became his territory—the stage at which the word entered English.]

† 1. The domain or territory of a count. *Obs.*

2. One of the territorial divisions of Great Britain and Ireland, formed as the result of a variety of historical events, and serving as the most important divisional unit in the country for administrative, judicial, and political purposes.

The AF. *counté* and the med.L. *comitatus* were used to render the English SHIRE, the division of the country administered originally by an *eorl* and later by a *sheriff* (AF. *viscounte*); whence *counte* was gradually adopted in English (app. scarcely before the 15th c.), as an alternative name for the *shire*, and in course of time was applied to the similar divisions made in Wales and in Ireland, as well as to the shires of Scotland, and also extended to those separate portions of the realm which never were shires, as the duchy of Cornwall, Orkney and Shetland, etc.

b. The status of county was also given at various times to a number of cities and towns in England and Ireland, with a certain portion of adjoining territory; these were separated from the shire in which they were situated, and made counties by themselves; more exactly called *corporate counties* or *counties corporate*: see CORPORATE *ppl. a.* 4.

c. By the Local Government Act of 1888 the word has received a further modification of meaning; besides the historical counties, and counties corporate, boroughs of above 50,000 inhabitants are made administrative counties under the name of *county boroughs*, which are administratively, but not politically or judicially, independent of the counties in which they are situated.

c. A section or subdivision of the area of an Exhibition building, a museum, or the like, open above (to the general roof), and usually devoted to the products of a particular country, or department of science, art, or industry.

This application of the word appears to have originated in the structure of the building in Hyde Park for the Great Exhibition of 1851. The rows of pillars supporting the roof, which crossed each other at right angles, divided the central area into a number of rectangular sections; these being themselves open to the lofty roof, while bordered on two sides by galleries supported by the pillars, suggested courts within buildings, and soon received the name; the term was further extended in the Crystal Palace at Sydenham (as in the Alhambra, Egyptian, Pompeian, and Renaissance Courts), and in later Exhibitions has been used with still greater extension; it has also been, with more closeness to the original notion, applied to the central open area of a museum, surrounded by its arcades and galleries.

1851 *Illust. Lond. News* 3 May 364/1 The very nature of the construction of the building suggests its subdivision into courts; and this is distinctly illustrated in the plan of the gallery..there are four of these large courts, and two smaller ones, parallel with the transept in each of these western divisions of the Building..from the gallery these courts form a most interesting feature in the arrangements. *Ibid.* 31 May 494 The Tunis Court. *Ibid.* 495 The Canadian Court..The Building Court. 1854 (*title*) The Ten Chief Courts of the Sydenham Palace. 1862 *Illust. II. A princely residence, household, retinue.

5. The place where a sovereign (or other high dignitary) resides and holds state, attended by his retinue.

This sense is said to have arisen in Old French, the name *curt* being applied to the residences of the early Frankish kings on their rural domains: see Littré, and cf. sense 2: But the actual history is involved in obscurity from the paucity of early evidence.

III. An assembly held by the sovereign.

9. A formal assembly held by the sovereign at his residence: in early times, of his councillors and great lords, for purposes of administration; in later times to give state receptions, audience to ambassadors, and the like. The early use has

given rise to the 'high court of parliament' (sense 10), and 'the king's courts' of justice (sense 11); the modern use is naturally associated with senses 6, 7, as in *to be presented at court*.

11. An assembly of judges or other persons legally appointed and acting as a tribunal to hear and determine any cause, civil, ecclesiastical, military, or naval.

Justice was in early times administered in assemblies held by the sovereign personally (sense 9), then by judges who followed the king as officers of his court; hence the title the *King's Courts* (*curia regis*).

In this sense more fully defined as *court of law, law-court, court of justice, of judicature*. These are distinguished as *superior* or *inferior*, according to their respective rank, the highest court of a country or state being called the *Supreme Court*. *Court of first instance*: a court in which a matter must first be tried, as distinguished from a *court of appeal*, to which it may subsequently be carried. *Court of record*: see quot. 1765.

Court-baron. [a. AF. *court baron*, earlier *court de baroun*; in med L. *curia baronis*, court of the baron or lord.] The assembly of the freehold tenants of a manor under the presidency of the lord or his steward.

Such a court had a jurisdiction in civil actions arising within the manor, especially in such as related to freehold land. This jurisdiction began to decay at an early date, and is now practically obsolete. (In modern times lawyers have distinguished between the *court-baron* which was the court of the freehold tenants, and the *customary court* which was the court for the copyhold tenants. The early history of this distinction is obscure. F. W. Maitland.)

†Cou·thutlaughe. *Obs. Law.* Also 3 (in MSS.) **cuthutlage, cuth vtlaghe, kuthutlaghe.** [app. an early ME. repr. of an OE. *cūþ ūtlaga* known outlaw.] A term applied, according to Bracton, to a person knowingly harbouring or concealing an outlaw; or perhaps, more properly, to the offence of doing so.

c 1250 BRACTON III. II. xiii. (Rolls) II. 336 Talem [exulem] vocant Anglici utlaughe..[Utlagatus] aut potest esse notus et cognitus vel ignotus et incognitus; et unde qui notum et cognitum receptaverit pari pœna puniendus est, qui dicitur Couthutlaughe [MSS. v. rr.: see above]. 1640 COWELL *Interpr., Couthutlaughe* is he that willingly receiveth a man outlawed..and hideth him. [Hence, 1641 in *Termes de la Ley*, 1656 BLOUNT, and later Dicts.]

[Known only in loc. cit.; the OE. terms represented is not recorded. It is not easy to comprehend that the term 'known outlaw' could originally designate the harbourer; prob. the word is the fragment of a phrase designating the harbouring of a known outlaw; it has been suggested that the meaning might be 'acquaintance or familiar of an outlaw', but this would be in OE. *ūtlagan cūþa*, or perh. *cūþa ūtlagan*.]

‖ **Couvade** (kuvɑ·d). [a. obs. F. *couvade*; f. *couver* to hatch: see next. Cotgr. (1611) has *couvade* = *couvée* (COVEY) or *couvement* (brooding, sitting on eggs); whence the derisive phrase, *faire la couvade* 'to sit cowring or skowking within dores, to lurke in the campe when Gallants are at the Battell'.] A term applied by some writers to the 'man-childbed' attributed to some uncivilized or primitive races, and extended to comprehend a series of customs according to which, on the birth of a child, the father performs acts or simulates states natural or proper to the mother, or abstains for a time from certain foods or actions, as if he were physically affected by the birth.

1865 TYLOR *Early Hist. Man.* x. 288 One of these practices has an existing European name, the *couvade*, or 'hatching,' and this term it may be convenient to use for the whole set. *Ibid.* x. 294 The country.. where Marco Polo met with the practice of the couvade in the thirteenth century, appears to be the Chinese province of West Yunnan. 1871 YULE *Marco Polo* Note 3 to II. I. 57 This highly eccentric practice has been ably illustrated and explained by Mr. Tylor under the name of the *Couvade* or Hatching, by which it is known in some of the Béarn districts of the Pyrenees.

[Fr. *couvade* (in R. Etienne 1543, Ph. Monet 1626) was a word of the same class as *croisade* CRUSADE, in which the suffix *-ade*, adapted from Pr. and Sp. *-ada*, It. *-ata*, *-ada*, is substituted for the cognate F. *-ée*, from L. *-āta*: see -ADE. It was thus etymologically a doublet of *couvée*, covey. As applied to men the phrase *faire la couvade* appears to have been merely derisive. The recent application of the word in anthropology is due to Dr. E. B. Tylor, following M. Francisque Michel *Le Pays Basque* (1857) 201, where the 'man-childbed attributed to the Basques and Béarnese, is said to be so called by the latter. But this is a mistake, traceable to a statement as to the phrase *faire la couvade*, in Rochefort's *Hist. Naturelle et Morale des Antilles* (1658) 494–5, repeated with variations by a sequence of later writers. It is not true that *couvade* was ever a name for the practice in Béarn; the Béarnese *coade* is simply = F. *couvée*, a covey of chickens. Further, the pretended existence of the practice in Béarn and among the Basques appears to be merely the echo of a statement of Strabo as to the ancient Celtiberians, loosely repeated by one compiler after another as a commonplace of history. (See *Academy* 29 Oct., 5 and 19 Nov., 10 and 17 Dec. 1892.)]

[The Heb. word בְּרִית *bĕrîth* is also the ordinary term for a contract, agreement, alliance, or league between men. It is constantly rendered in the Septuagint by διαθήκη 'disposition, distribution, arrangement', which occurs in Aristophanes in the sense 'convention, arrangement between parties', but usually in cl. Gr. meant 'disposition by will, testament'. Accordingly, the Old Latin translation of the Bible (Itala) appears to have uniformly rendered διαθήκη by *testamentum*, while Jerome translated the Heb. by *fœdus* and *pactum* indifferently. Hence, in the Vulgate, the O. T. has the old rendering *testamentum* in the (Gallican) Psalter, but Jerome's renderings *fœdus*, *pactum* elsewhere; the N. T. has always *testamentum*. In English Wyclif strictly followed the Vulgate, rendering *fœdus*, *pactum*, by *boond*, *covenaunt*, rather indiscriminately, *testamentum* in the Psalter and N. T. always by *testament*. So the versions of Rheims and Douay. The 16th c. English versions at length used *covenant* entirely in O. T. (including the Psalter), and Tindale introduced it into 6 places in the N. T. These the Geneva extended to 23, and the Bible of 1611 to 28 (in 2 of which Gen. had *testament*), leaving *testament* in 14 (in 3 of which Gen. had *covenant*). The Revised Version of 1881 has substituted *covenant* in 12 of these, leaving *testament* in 2 only (Heb. ix. 16, 17).]

Thus בְּרִית, διαθήκη, *fœdus* (*pactum*), *covenant* are applied to God's engagement with Noah and his posterity, Gen. vi. 18, ix. 9–17; to that made with Abraham and his posterity, Gen. xvii, of which the token was circumcision; to the institution of the Mosaic Law, Exod. xxiv. 7, 8, and to that law or its observance itself, whence the expressions *book of the covenant* (i.e. of the law), *ark of the covenant*, *blood of the covenant* (i.e. of beasts ritually sacrificed), *land of the covenant* (=promised land, Canaan). The covenant with the Israelites, in its various phases, is commonly called the *Old Covenant*, in contrast to which the prophets made promise of a *new covenant*, Jer. xxxi. 31; and this name καινὴ διαθήκη *New Covenant* (*testament*) was, according to St. Luke xxii. 20, applied by Jesus to the new relation to man which God had established in Him. In this sense it is also used by St. Paul and the writer of the Epistle to the Hebrews, who contrast these two covenants (Gal. iv. 24, Heb. viii. 13, ix. 15, etc.), also called by commentators the *Temporal* and the *Eternal Covenant* (cf. Heb. xiii. 20).

8. *Theol.* a. *Covenant of Works*, *Covenant of Grace*: the two relations which are represented as subsisting between God and man, before and since the Fall.

The Covenant of Works (or *of Life*) was made with Adam for himself and his posterity upon condition of obedience; the *Covenant of Grace* (or *of Redemption*) with 'the Second Adam' and with his elect in him, for their deliverance from the misery and penalty into which they had fallen through transgression of the covenant of works. The theology of the covenants, or Federal Theology, was first elaborated by Koch or Cocceius (1603–1669); and attained great vogue in the 17th c., esp. among the Puritans. It is prominently developed in the Westminster Confession of Faith, and its accompanying Catechisms.

9. *Eccl.* a. *Sc. Hist.* The name given to certain bonds of agreement signed by the Scottish Presbyterians for the defence and furtherance of their religion and ecclesiastical polity.

The *National Covenant* was signed at Edinburgh on 28 Feb. 1638 for the defence of Presbyterianism against the Episcopal system that had been introduced by James I and Charles I. The *Solemn League and Covenant* was accepted by the General Assembly of the Church of Scotland on 17 Aug. 1643, and by the Westminster Assembly of Divines, and English Parliament, on 25 Sept., as a league between England and Scotland on the basis of the establishment of Presbyterianism in both countries. It is to the latter especially that the name usually refers. It is sometimes given also to the Bonds subscribed at Edinburgh by the Lords of the Congregation and their followers on 3 Dec. 1557, and at Perth on 31 May 1559, the object of which was the carrying out of the Protestant Reformation.

Cow (kau), *sb.*[1] Forms: *sing.* 1–4 cu, 3–4 ku, 3–6 cou, kou, kow, 4 7 cowe, kowe, (5 cough, 6 coowe), 3– cow. Plural *cows, kine* (kəin), north. *kye* (kəi): see below. [A Common Teut. and Common Indo-germanic word: OE. *cū* = OFris. *kū*, OS. *kō* (MDu. *koe*, Du. *koe*, LG. *ko*), OHG. *chuo* (MHG. *kuo*, G. *kuh*), Icel. *kýr*. acc. and dat. *kū* (:—*kū-z*, Sw., Da. *ko*, *koe*):—OTeut. **kōu-z*, **kō-z*, fem.:—Aryan *gʷōus*, acc. *gʷōm*, whence Skr. *gāús*, *gām*, *gav-*, *go-*, Gr. *βοῦς*, *βοϝ-*, *βο-*, L. *bōs*, *bov-*, *bo-*, ox; the word being of both genders outside Teutonic.

The *ū* in OE., Fris., and ON., against the original *ō* retained in OS. and OHG., is perh. to be explained from an original Teutonic inflexion *kōu)z*, *kōm*, *kōwes*, *kōwi*, pl. *kōwes*, *kōwōm*, *kō(u)mis*, whence, by regular passage of original *ōw* before vowels into *ū*, gen. *kūis*, dat. *kūi*, pl. *kūis*, etc. Hence by levelling in the separate langs., *kō-* or *kū-* (umlaut *kȳ-*), throughout. (Prof. Sievers.)

The OE. inflexion was: Sing. gen. *cúe*, *cú*, later, after *o*-stems, *cuus*, *cús*; dat. *cý*; Pl. nom. acc. *cýe*, *cý*, gen. *cúa*, later, after *n*-stems, *cúna*, north. *cýna*; dat. *cúum*. Eng. But Southern Eng. at an early period took an extended form *kȳn*, later *kyne*, *kine*, still used, with slightly archaic flavour, beside the later *cows*, which hardly appears before the 17th c. ME. *kȳn* is to be compared with *brethren*, *children*, and other southern plurals in *-n*. In this particular case, the use of the gen. pl. *cúna*, *cýna* (in 12th c. *cune*, *kyne*) with numerals (see 1 b *β* below), may have contributed to the prevalence of the *kȳn*, *kyne* form.]

Coward (kau·ėrd), *sb.* and *a.* **Forms: 3 cueard, cuard, 4 cuward, couard, couward, couwarde, couherde, 4–6 cowart, cowarde, 5 coward, koward(e, 6 cowert, cow-heard, cow-herd 3- coward.** [a. OF. *coart* (*cohart, cuard, cowairt*, later *couart, couard*) = Pr. *coart*, It. *codardo*, f. *coda*, L. *cauda*, OF. *coe* tail: see -ard.

The precise reference to *tail* is uncertain: it may be to an animal 'turning tail' in flight, or to the habit in frightened animals of drawing the tail between the hinder legs: cf. the Heraldic use in sense B 2. It is notable that in the Old French version of *Reynard the Fox*, *Coart* is the name of the hare: this may be a descriptive appellation in reference to its timidity; but it is also possible that the hare was so called originally from its tail or 'bunt', so conspicuous as the animal makes off, and that the name was thence transferred to 'hearts of hare'.]

The cl. Lat. *cucullus* was the hood of a cloak, covering the head only. The cowls of the early Egyptian monks covered the heads, and barely reached the shoulders; by 800 the cowls of monks had become so long as to reach their heels, when St. Benedict restricted their length to two cubits. In the 14th c. the cowl and the frock were often confounded; but it was declared at the Council of Vienne 'we understand by the name of *cucullæ* a habit long and full, but not having sleeves, and by that of *floccus* a long habit which has long and wide sleeves'. Cozen (kv·z'n), *v.* Forms: 6–9 cosen; also 6 cooson, -in, (cousinge, cossen, cussen), 6–7 coosen, cosen, coson, cousin, 7 cosin, cozon, coozen, cousen, -son, -sin, 7–8 cousen. [Derivation uncertain.

The earliest trace of the word appears to be in the derivative *cousoner* in Awdelay's *Fraternitie of Vacabondes*, 1561 (see Cozeners); it is not improbable that it arose among the vagabond class. It has generally been associated with Cousin *sb.*, and compared with F. *cousiner*, explained by Cotgrave, 1611, as 'to clayme kindred for aduantage, or particular ends; as he, who to saue charges in trauelling, goes from house to house, as cosin to the owner of euerie one', by Littré as 'faire le parasite sous prétexte de cousinage'. From this it is not far to a transitive sense 'to cheat, beguile, under pretext of cousinship': cf. also the phrase 'to make a cousin of' under Cousin 8. Still, the transition is not evidenced in our quotations for this vb.; and it is noteworthy that while in *cousin* sb. the ending *-in* predominates, this verb has sometimes *-en*, most commonly *-en*, the prevalent 17th. c. forms being *cousen, cosen, coson*, the latter of which became the established form *c* 1710. In view of these difficulties, Mr. Smythe Palmer has suggested derivation from It. *cassonare*, explained by Florio 1598–1611 as 'to play the horse-breaker or courser ..Also, to play the craftie knaue', deriv. of *cassone*, 'a horse-breaker..a horse-course'. Also, a craftie knaue'. But this also presents difficulties, which the extant evidence is not sufficient to remove.]

10. *Rowing. To catch* (rarely *cut*) *a crab*: to make a faulty stroke in rowing whereby the oar becomes jammed under water. The resistance of the water against the blade drives the handle against the rower's body with sufficient force (if the boat be in rapid motion) to throw him back out of his seat, and to endanger the capsizing of the boat.

The phrase prob. originated in the humorous suggestion that the rower had caught a crab, which was holding his oar down under water; it does not appear to have any historical connexion with the It. *pigliare un granchio* 'to catch a crab', to make a big blunder or complete mistake, 'toto cælo errare'; all the quots. given by Manuzzi for this phrase are *fig.*, of conduct, action, etc., e. g. 'In nessun' altra cosa l'uom più erra, piglia più granchi, e fa maggior marroni, che nella cosa della guerra' (i. e. In no other thing does man err more, catch more crabs, and make greater blunders [*lit.* spades], than in the matter of war).

The phrase is not uncommonly applied, from similarity of result, to the action of missing the water with the stroke, or to any other action which causes the rower to fall backward; but this

(though found in Dictionaries from Grose onward) is an improper use by the uninitiated.

1785 Grose *Dict. Crab (kræb), *sb.*[2] Also 5–7 crabbe; 6– Scrab. [Of uncertain origin, appearing first in 15th c.

A Sc. form *scrab, scrabbe*, is evidenced from beg. of 16th c., and may easily be much older. This is app. from Norse, as Rietz has Sw. dial. *skrabba* fruit of the wild apple-tree, and may be the original form. In that case *crabbe, crab*, would be a southern perversion, assimilated to Crab *sb.*[1] But, on the other hand, this may be only a transferred use of that word: cf. the history and development of Crabbed, and the application of *crab* in various languages to a person. A fruit externally promising, but so crabbed and ill-conditioned in quality, might very naturally be so called; yet actual evidence of the connexion is wanting. (A Sw. *krabbäple*, which has been cited, is merely the horticultural name of the American Crab-apple, *Pyrus Coronaria*, introduced with the shrub from the United States.)]

1. The common name of the wild apple, especially connoting its sour, harsh, tart, astringent quality; applied also to cultivated varieties having similar qualities, grown for preserving, making verjuice, etc.

Crabbed (kræ·bĕd), *a.* Also 4 crabyd, 4–6 crabbid, 4 8 -it, 5 -yd, (*Sc.* 6–7 crabit, 6 craibit). [orig. f. CRAB *sb.*[1] + -ED: cf. DOGGED. The primary reference was to the crooked or wayward gait of the crustacean, and the contradictory, perverse, and fractious disposition which this expressed. Cf. Ger. *krabbe* crab, whence, according to Grimm, 'because these animals are malicious and do not easily let go what they have seized, LG. *ene lütje krabbe* (a little crab) a little quarrelsome ill-conditioned man (*Bremen Wbch.*)'; also in Saxony said of self-willed, refractory children. So E.Fris. *krabbe* crab, *transf.* a cantankerous, cross-grained man (who is refractory and froward like a crab, sticking fast or going backwards, when he ought to advance); whence *krabbig* contentious, cantankerous, fractious, cross-grained (Doornkaat Koolman). Literal senses of 'cross-grained, crooked', and 'knotted, gnarled, un-smooth', applied to sticks, trees, and the like, also appear; these re-act upon the sense in which the word is applied to persons and their dispositions. In later use there is association with the fruit, giving the notion of 'sour-tempered, morose, peevish, harsh'.]

1. Of persons (or their dispositions): *orig.* Of disagreeably froward or wayward disposition, cross-grained, ill-conditioned, perverse, contrarious, fractious. (Now blending with b.)

-cracy, formerly also **-cratie, -crasie,** a. F. *-cratie* (-krasi), ad. med.L. *-cratia*, a. Gr. *-κρατία*, in composition 'power, rule', f. *κράτος* strength, might, rule, authority. Already used in Greek in *ἀριστοκρατία* aristocracy, rule of the best-born, *δημοκρατία* democracy, popular government, *ὀχλοκρατία* ochlocracy, mob-rule, *πλουτοκρατία* plutocracy, an oligarchy of wealth, *θεοκρατία* theocracy, rule of God; whence ANGELOCRACY, government by angels, *bestiocracy* (*The Times* 21 Nov. 1863) the rule of beasts. All these have a preceding *o* belonging to or representing the stem vowel of the first element, but which tends to be viewed as part of the suffix, as if this were *-ocracy*. The word *aristocracy* has in modern times, in Fr. and Eng., passed into the senses of 'a ruling body of nobles, the nobles as a ruling class, political power, or upper class', after which *democracy* has received the sense of 'the people or lower class as a political power or element', and *plutocracy* that of 'a class ruling or influential by virtue of its wealth'.
Hence the suffix, in the form *-ocracy*, has been added to English words, to designate in mockery or ridicule any dominant, superior, or aspiring class, as in the following (mostly colloquial or newspaper words); *barristerocracy, brokerocracy, capocracy, millocracy, shipocracy, shoddyocracy* (barristers, brokers, cap-setting women, mill-owners, ship-owners, shoddy-manufacturers, as classes of social standing or pretensions); see also BEEROCRACY, CLUBOCRACY, COTTONOCRACY, COUNTYOCRACY, MOBOCRACY, SNOBOCRACY, SHOPOCRACY, SLAVEOCRACY, etc.

V. Applied to boats, ships, and fishing requisites.

[These uses were probably colloquial with watermen, fishers, and seamen some time before they appeared in print, so that the history is not evidenced; but the expression is probably elliptical, sense 9 being = vessels of small craft, i.e. small trading vessels, or of small seaman's art, and sense 10 = requisites of the fisherman's craft. It is not impossible that the latter was the earlier: cf. quot. 1704 in 10. The want in English of any general collective term for all sorts of 'vessels for water carriage' naturally made *craft* a useful stop-gap.]

Up to 1815 the *cran* was measured by heaping full a herring-barrel with the ends taken out, which was then lifted, leaving the heap on the ground or floor. In 1816, the Commissioners for the Herring Fishery fixed the capacity of the 'cran' at 42 gallons, Old Wine Measure, which in 1823 was raised to 45 gallons, 40 gallons when 'pined' being found insufficient to make a barrel of bung-packed herrings. Cranberry (kræ·nbĕri). Several varieties of the name occur in continental languages, as G. *kranichbeere*, *kranbeere*, LG. *krônbere*, *krones-* or *kronsbers*, *krônsbär*, *kranebere* (all meaning *crane-berry*); cf. also Sw. *tranbär*, Da. *tranebær*, f. *trana*, *trane*, crane. 1. The fruit of a dwarf shrub, *Vaccinium Oxycoccos*, a native of Britain, Northern Europe, Siberia, and N. America, growing in turfy bogs: a small, roundish, dark red, very acid berry. Also the similar but larger fruit of *V. macrocarpon*, a native of N. America (*Large* or *American Cranberry*). Both are used for tarts, preserves, etc. The name is also given to the shrubs themselves.

The name appears to have been adopted by the North American colonists from some LG. source, and brought to England with the American cranberries (*V. macrocarpon*), imported already in 1686, when Ray (*Hist. Pl.* 685) says of them 'hujus baccas a Nova Anglia usque missas Londini vidimus et gustavimus. Scriblitis seu ortis (*Tarts* nostrates vocant) eas inferciunt'. Thence it began to be applied in the 18th c. to the British species (*V. Oxycoccos*). In some parts, where the latter is unknown, the name is erroneously given to the cowberry (*V. Vitis Idæa*).

1. A thin transparent gauze-like fabric, plain woven, without any twill, of highly twisted raw silk or other staple, and mechanically embossed, so as to have a crisped or minutely wrinkled surface. The name originally comprised fine worsted fabrics (see b.); but it is now chiefly limited to a black silk (or imitation silk) fabric much used for ladies' mourning dresses, and for funereal trimming and draping.

Sometimes specifically called *English crape* (*crêpe anglais*). For similar fabrics of other colours or material the French form Crêpe (which has retained the wider meaning of the word) is now used by preference, though the English form also occurs with qualifications, as in *Canton* or *China crape* = *crêpe de Chine*, *crape-lesse* = *Crêpe lisse*, a kind of crape without any wrinkling or 'figure'; see also *crape cloth* below. The 'crape' for which Norwich was formerly famous, was a plain cloth of silk warp and worsted weft, which afterwards degenerated into *bombasine*: see the latter word (quots. 1789–1831).

Craunch, cranch (krɑnʃ, krǫnʃ), *v* [*Cranch* appears after 1600; in early use it varied with *scranch*, still given by Johnson, 1755, as retained by the Scots, and now dialectal. As in other words where initial *cr-* and *scr-* interchange (cf. *crab, scrab, crap, scrap, cratch, scratch*), it is doubtful which of these is the original. The priority of *scranch* is favoured by its nearness in form and sense to some Du. and LG. words. Cf. 16th c. Du., in Plantijn 1573, *schranzen* to split, break, evidently related to MHG. *schrans* breach, split, crack, rent; in Kilian 1599 *schransen* to break, tear, crush, bruise; also to chew, crush with the teeth, to comminute or grind (the food) with the teeth; mod. Du. *schransen* to eat voraciously, WFlem. *schranzen* to gnash, eat with gnashing of the teeth, to craunch; also EFris. *schrantsen, schranssen*, to tear or snatch to one's-self, to eat greedily.

On the other hand, earlier examples are at present known of *cranch*, and this may, as in the parallel pair *crunch, scrunch*, be really the earlier form. *Cranch* might be an onomatopœic modification of *crash*, which was used in the very same sense from 16th to 18th c.: see quot. 1730 from Bailey's Folio. That association with *crash, crush*, has affected the word, is evidenced by the later form *crunch*. The original pronunciation was as in *branch*; the occasional pronunciation as in *paunch* is due to the spelling with *au* (chiefly since Johnson), with the obsolescence of the word in living use: cf. Thoreau's spelling *cronch*.]

1. An article of dress worn round the neck, chiefly by men.

It came into vogue in France in the 17th c. in imitation of the linen scarf worn round their necks by the Croatian mercenaries. When first introduced it was of lace or linen, or of muslin edged with lace, and tied in a bow with long flowing ends, and much attention was bestowed upon it as an ornamental accessory. In this form it was originally also worn by women. More recently the name was given to a linen or silk handkerchief passed once (or twice) round the neck outside the shirt collar and tied with a bow in front; also to a long woollen 'comforter' wrapped round the neck to protect from cold out of doors.

1656 BLOUNT *Glossogr.*, *Crabbat* (Fr.)..is often used Substantively for a new fashioned Gorget which women wear [1674 (ed. 4) *Crabat* (Fr.) is of late well known with us to be that Linnen which is worn about Mens (especially Souldiers and Travellers) Necks, in stead of a Band]. 1658 *Wit Restored, Burse of Reform.* (Fairholt), Pray you Madam sitt, ile shew you good ware..Against a stall or on a stool Youl nere hurt a crevatt. 1663 BUTLER *Hud.* I. iii. 1166 The Handkerchief about the neck (Canonical Crabat of Smeck). 1672 WYCHERLEY *Love in Wood* III. ii, 'Twould be as convenient to buy satires against women ready made, as it is to buy cravats ready tied. 1676 ETHEREDGE *Man of Mode* I. i, That a mans excellency should lie in Neatly tying of a Ribbond, or a Crevat! 1688 R. Mr. Henry Nicol (*Proc. Phil. Soc.*, Dec. 1879) suggested its identification with OF. *cravanté*, *crevanté*, crushed, overcome: see Cravent *v.* But the total absence of the *final t* from the word, at a date when English still retained final *e*, makes a difficulty. Others have considered it a variant, in some way, of Creant (OF. *creant*, *creanté*), which is a much more frequent word in the same sense in ME. The difficulty here is to account for the *v* (*u*), for which popular association with Crave *v.* and its northern pa. pple. *crowed* has been conjectured.]

Crawl (krɔ̄l), *v.*[1] Forms: 4 **croul**, **creul**, **crul**, 4–7 **craule**, **crawle**, 5–6 **crall**, 7 **craul**, 7– **crawl**. [A rare word in ME. and apparently only northern; prob. from Norse: cf. Da. and Norw. *kravle* to crawl, climb up, Sw. *krafla* to grope, Icel. *krafla* to paw or scrabble with the hands (mod.Icel. *krafla fram úr* to crawl out of). The word existed also in West Germanic, but the corresponding OE. form **craflian* has not been found.

To Norse *krafla* corresponds an OLG. **krabalōn*, whence 15th c. HG. *krabelen*, *krabeln* to crawl, creep, still used in various HG. dialects, but now replaced in mod.G. by *krabbeln* (see Kluge). The word is a frequentative from an OTeut. vb. stem **kraƀ-*: **krēƀ-* to scratch, claw, paw: cf. Crab *v.*[2] and see Grimm *krabbeln*, *kribbeln*.

The diphthongal ME. *craule*, *crawle* (from *crawle*), was reduced to *crall* by end of 15th c., riming with *small* in Spenser: cf. the form-history of Awl. But the phonology of the early forms *crewle*, *creule*, *cronle*, *crule*, is obscure; *crewle* reminds us of MDu. *crēvelen*, but *croule*, *crule*, suggests some confusion with Crowl, Fr. *crouler*: see esp. sense 6.]

Creek (krīk), *sb.*[1] Forms: *α.* 4 **krike,** 4–5 **cryke,** (**kryk**), 6–7 **crike**; *β.* 4–6 **creke,** (6 **creake, crieque**), 6–7 **creeke,** 7 **creak, creick,** 6– **creek**; *γ.* 6– **crick.** [Three types of this are found, viz. (1) *crike, cryke* (ī, usual in ME., (2) *creke*, rare in ME. (see sense 7), but common in the 16th c. (whence the current *creek*), and (3) *crick*, only since 16th c. The first corresponds to F. *crique* (14th c. in Littré); the second to earlier Du. *krēke* (Kilian), mod.Du. *kreek* creek, bay, and to med. (Anglo) L. *creca* (sometimes *crecca*) creek. The form *crick* resembles Sw. dial. *krik* bend, nook, corner, creek, cove (Rietz), and Icel. *kriki* crack, nook (*handarkriki* armpit), but is prob. an Eng. shortening of *crique, crike*. In many parts of U.S. *crick* is the common pronunciation of *creek* in the sense 'stream'. The earlier history is not known, but the word (in French also) is generally supposed to be Germanic. In sense 4 the word appears to be related to *crack*; in 6 and 7 there appears to be association with Crook.

A corresponding double form is seen in *pike, peak, F. pic.* It has been conjectured that the word is preserved in the OE. proper names *Creacanford, Creccanford, Crecganford*, Crayford (in Kent), and *Crecca-gelad, Criccelad*, Flor. *Criccelade*, Cricklade (in Wilts); the former is impossible; in the latter *crecca* could not be the origin of either *crike* or *creke*, though some connexion is possible, if there were any reason to suppose that the meaning suits.]

b. In U. S. and British Colonies: A branch of a main river, a tributary river; a rivulet, brook, small stream, or run.

Probably the name was originally given by the explorers of a river to the various inlets or arms observed to run out of it, and of which only the mouths were seen in passing; when at a later period these 'creeks' were explored, they were often found to be tributaries of great length; but they retained the designation originally given, and 'creek' thus received an application entirely unknown in Great Britain.

Creem (krīm), *v. dial.* Also **cream, crim.** [Of obscure etymology: possibly two or even three distinct words are here included. The various senses belong to distinct parts of England.

The variant *crim* has suggested identity with OE. *crimman* to squeeze, press (cf. sense 2); but the evidence does not show that *crim* is the earlier form, rather the contrary: and it is not easy to see how *creem* with its long vowel could arise from the ablaut series *krim-, kram, krum-*.]

Creep (krīp), *v.* Pa. t. and pa. pple. **crept** (krept). Forms: see below. [A common Teutonic strong vb.: OE. *crēopan* = OS. *criopan*, OFris. *kriapa* (NFris. *krepen*, Satl. *kriops*), ON. *krjūpa* (Sw. *krypa*, Da. *krybe*) :—OTeut. **kreupan*. As with some other verbs of the same class (cf. BOW, BROOK, LOUT), the present has in some of the langs. *ū* for *eu*, as OLG. *krūpan*, MDu. *cruipen*, Du. *kruipen*, MLG., LG. and EFris. *krūpen*, MG. *krūfen, kraufen*. In OHG. replaced by *chriohhan*, MHG. and mod.Ger. *kriechen*, repr. a type *kreukan*, the relation of which to *kreupan* is uncertain.

The OTeut. conjugation was, pres. *kreupan*, pa. t. *kraup*, pl. *krupun*, pa. pple. *krupan*; whence OE. pres. *crēopan* (3rd sing. *crīepp*), pa. t. *crēap*, pl. *crupon*, pa. pple. *cropen*. The OE. pres. *crēopan*, ME. *crēpen* (close *ē*), has regularly given the modern *creep*; occasional ME. instances of *crope* are app. errors. The pa. t. sing. *crēap* regularly gave ME. *crēp* (open *ē*), spelt also *crepe, creep'e*, which was in general use to the 15th c., and survives with short vowel in the dialectal *crep*. The plural *crupon, crupe,n*, became in the 13th c. *cropen, crope*, after the pa. pple.; and this passed also into the sing. as *crope*, the prevailing type of the tense to the 16th c., after which it gradually dropped out of literary use, though still widely used in English and U.S. dialects. In the northern dial., the form adopted in the 13th c. was *crap* (after the pa. t. of other classes), which is still Scotch. But already before 1400, weak forms *creep-ed* and *crep-t*, began to take the place of all these, the second of which has since 16th c. gradually attained to be the standard form, leaving *crep, crope, crop, crup, crap*, as only dialectal. The pa. pple. *cropen* continued till the 17th c. in literary use, and to the 19th c. in the northern dial. where the vowel is still short *croppen, cruppen*; in the south it became in 13th c. *crope*, also literary Eng. to the 18th c.; but a weak form *crepid, creeped* began to appear in the 14th c., and in the form *crept*, identical with the pa. t., has been the dominant form since the 16th c.]

Cricket (kri·kĕt), *sb.*[2] Also 6 **crecket**, 7 **kricket**. [Etymology uncertain.

The word occurs in a document of 1598 (see below), and the evidence then given takes the game back to the end of the reign of Henry VIII. The word appears to be the same as F. *criquet* given by Littré as 'jeu d'adresse', by Godefroy as 'bâton servant de but au jeu de boules', with a quot. of 1478, 'Le suppliant arriva en ung lieu ou on jouoit a la boulle, pres d'une atache [vine-stake] ou criquet'. It has been surmised that it is the same as Cricket *sb.*[2], and the game a development of that known as Stool-ball, to which there are many references from 1567 to 1725, as a game at which girls and women especially played; but this is very doubtful: *cricket*, a stool, is itself not in evidence till a later date. *Cricket* cannot be a deriv. of OE. *cryce* 'knobbed staff', for here the *cc* was palatal and gave ME. *crytch*, crutch; but F. *criquet* might be a deriv. of the cognate M.Flem. *krick, kricke*, 'baston à s'appuyer, quinette, potence'. Many changes have been made in the character of the game since the 17th c. when the *bats* were hockey-sticks, the wicket of two stumps with one long bail, and the ball trundled or 'bowled' along the ground. Cf. Bail *sb.*[4], Bat *sb.*[2], Bowl *v.*, Wicket.]

An open-air game played with ball, bats, and wickets, by two sides of eleven players each; the batsman defends his wicket against the ball, which is bowled by a player of the opposing side, the other players of this side being stationed about the 'field' in order to catch or stop the ball.
